

LOW COST tool for Fire Corps Programs and Fire Departments

Does your Fire Corps program or fire department need a comprehensive tool that relieves the burden of maintaining contact and location information? A tool that speeds information to your leaders and members – at very low cost and with **no technical skills required**? FireCTR was created by an active Citizen Corps volunteer who identified the need for secure, web-based technology to simplify management of volunteers and streamline communication in programs like CERT, VIPS and MRC.

Need funds to expand your program?

What we've found by talking with many Fire Corps leaders is that funding is always a challenge. Let our experts assist you in locating sources for funds in your area!

Features & Benefits

Members maintain their own contact and location information	▶	No more roster management - EVER AGAIN!
Integrates into your existing chain of command	▶	Federal, region, state and counties can post content for all programs in their area (calendar, photo gallery, newsletter)
Tracks volunteer hours and event RSVPs for your programs	▶	Makes it easy to document your program's success and track training hours
Mapping Technology	▶	Teams are formed with simple, powerful mapping technology
Public, member, and team-based calendar	▶	One place to see team, program and regional events relevant to each member
Photo Galleries, Shared Documents	▶	Easy to set up and post new content with no technical skills
Automated monthly newsletters keep everyone engaged and informed	▶	Notices of upcoming events and items of interest can be posted for regions or individual programs
Completely web-based for universal access and ease of use	▶	No software to install or keep up to date, and updates to the technology are available instantly at no additional cost
Works across ALL Citizen Corps programs	▶	Members involved in multiple programs enter their information only once, and maintain it themselves

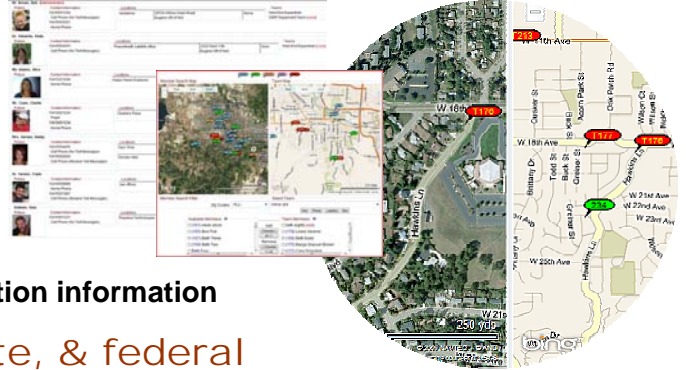

FireCTR keeps volunteers engaged & informed!

MUCH MORE than a website!

Great Team Management Tools!

- Teams can be formed by location or expertise
- Mapping tools make finding members easy
- As members relocate, adjustments are simple
- Temporary teams are easily formed & removed
- Team events can be posted to calendar
- Locations can be added (e.g. staging, cache)
- Each member maintains their own contact & location information

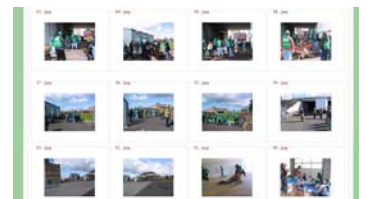

Calendar for chapter, area, region, state, & federal

- Events can be posted for leadership, teams, all members, or public view
- Invitations can be sent via e-mail & request RSVPs
- Volunteer hours can be tracked for training & events
- When logging in, only relevant events for that member are displayed

Photo Galleries and Shared Document Folders

- Galleries are a snap to make & post with large numbers of photos
- Images are automatically resized and formatted for dial-up viewing
- Slideshow feature makes viewing images fun!

Website Customization & Automated Newsletter

- Website is available immediately upon registration with FireCTR
- All aspects of home page can be completely customized as desired
- Shared documents can be posted for public, members or leadership only
- Every month a newsletter is sent to all members with upcoming events
- Items & custom content can be added to newsletter & posted to website
- Links page can be customized to access chapter-specific content
- Website & database are secured with industry-standard protocols

Communications via E-Mail & Text Message

- Messages can be sent to all members, leadership, & teams
- Members can be invited via e-mail to join website
- Members without Internet or e-mail access can be easily included
- E-mail & Text Messages are broadcast with no roster management!
